

Area of expertise	Years of experience	Highest qualification
Food Contact Materials (FCMs)	20	MSc, C.Chem.

Claire trained as a chemist and has 20 years' experience in analytical chemistry from across various sectors, in particular gas chromatography and mass spectrometry techniques and the analysis of FCMs.

Her, and her team's, areas of expertise include method development and validation as well as non-targeted high resolution mass spectrometry analysis for the determination of non-intentionally added substances (NIAS) in FCMs.

Claire is also the Fera lead for the UK National Reference Laboratory (NRL) for FCMs.
